

# PSI Logistics

Software for Logistics Industry Leaders

## Our mission

It is our goal,  
to improve logistics  
processes of  
our customers.

We lead the way:  
we show how  
better technology  
and sustainable  
solutions can  
be reached.

Our Board of Directors: Dr. Giovanni Prestifilippo Sascha Tepuric

## Our values

### Customer oriented:

Customers and their needs are the centre of all our actions.

### Economic:

The goal of PSI Logistics is to play a decisive role in shaping the digital future of our target industries and to secure the long-term increase in our corporate value.

### Responsible:

We are committed to social responsibility and act in an environmentally friendly manner.

### Open-minded:

We encourage a willingness to learn and the courage to question ourselves and to continuously improve.

### Partnership:

We work together across functional and departmental boundaries to achieve our common goals, especially with universities, associations and international partners.
