

Eheim GmbH & Co. KG

- + **Industry:** Aquarium products
- + **Software:** PSiWms
- + **Implemented interfaces:** SAP Retail connection
- + **Country:** Germany

Implementation/handling (extract):

- + The “Autostore” aisle-free, highly dynamic compact warehouse is connected to PSiWms via web services: 14 levels in 5,000 shafts with 7,000 container storage spaces
- + Management of stock in the Autostore without additional sub-systems, requests articles based on orders and sequences from the container warehouse and manages dialogue among the three connected work stations
- + 200 orders picked per day
