

SENATOR INTERNATIONAL Logistics GmbH

- + **Industry:** Logistics service providers
- + **Software:** PSiWms
- + **Implemented interfaces:** Navision, dispatch system
- + **Country:** Germany (Hamburg)

Implementation/handling (extract):

- + First client is a medical devices company
- + The addition of further clients from unrelated sectors is planned
- + Full mapping of processes from incoming goods, picking and packing to dispatch
- + Batch-based requesting of order items
- + Use of standard interfaces
- + Order-driven kitting in PSiWms as a lean production process including supply and disposal using forklift control system (FCS)
- + Invoicing of all services based on process statistics (e.g. Incoming goods, picks etc.) and defined events (e.g. for Value added services)
